**BIG
SKY**
CHARTER + FISHCAMP
KENAI RIVER
ALASKA

What to bring:

- **Clothing?** – Layers! We always recommend to bring clothing that is easy to layer. It can be cold in the early mornings but tends to warm up as the day goes on. You can start to peel away the layers as needed. Hats/caps, gloves, sunglasses, and sunscreen are also recommended.
- **Rain gear?** – We recommend you bring your own rain gear but, if you don't feel like packing those bulky items you can always borrow rain coats, pants, and boots from our boot shed.
- **Fishing gear?** – all fishing gear will be provided for you when you book a charter at Big Sky. We will also provide rods and tackle to fish from our shore. Unless there is something specific that you want to use there is no need to bring any fishing gear.
- **Bug Spray/Bear spray?** – Yes, we have mosquitos! As for bear spray most airlines do not allow you to fly with it. We have cans here for you to borrow if needed.

Fish Processing:

- If you booked any of the Big Sky Combo, Big Sky Deluxe, or Big Sky Elite packages there is 50lbs of processing included per group. After the first 50lbs you will pay \$1.65/lb to fillet, vacuum seal, freeze and store your fish.
- If you did not book one of our packages you will pay \$1.65/lb for processing plus an additional fee for each box.
- Big Sky does not ship fish. The easiest way to bring your fish home is to check it as an extra piece of luggage on your flight home. If you need to ship please contact us for a list of local options.
